What is the YAAC?

The Young AFCEAN Advisory Council (YAAC) serves AFCEA by representing the young members of the Association--35 years of age and younger and supports the overall AFCEA vision by promoting professional development of its members and providing representation on the AFCEA Board of Directors and Committees.

What is the

Young Afcean Mentorship Program

Our Chapter has won an educational Mentorship Grant and we've been working on a new program called the Adventure Series.

This event series is designed to educate the Young Afceans as well as other members of the Fort Monmouth Community on the latest technologies and their applications. The Adventure Series has been designed to peak the interests of the Young Afceans to get involved in the future of our community and to further inspire career development. We are currently researching other engaging topics of interest for the rest of our series.

All Young Afcean's are urged to bring their creative ideas to the table

Our plan is to make this series interesting, exciting and fulfilling
